Weakness of Sterling Exchange Precludes Gold Shipments and Money Rates Continue Ensy-Sugar Lose Early Gain on Rumors of a Price

NEW YORK, Jan. 15 .- During the first hour today's Stock Market was firm in tone, but business was on a limited scale Toward midday a reaction took place, and in some instances decided weakness prevailed. Manhattan Elevated led the downward movement and on fairly heavy selling lost 21/4 points. The list in general

The weakness in Sterling Exchange, placing gold shipments this week out of the question, was one favorable development commented upon as likely to better the chances for a strong bank statement on Saturday. London was not a factor of weight in the local dealings, irregular price changes and only limited dealings coming from that quarter.

Market Continues Professional.

Commission house business was again in light volume, but the majority of the professional element seemed to be ranged on the long side of the account for the time being, chiefly on the theory that the market was in an oversold condition.

The market's firmness at the opening was due to the prevailing ease in money and the absence of indications of gold exports. Sugar improved 1% per cent, but reacted a point on rumors that the price of refined sugar might be reduced.
Sales of stocks to 1 p. m., 288,100 shares; bonds \$2,174,106.

and San Francisco, common, which advanced to 63% during the first few minites of the day. No new gossip was heard tres of the day. No new gossip was heard regarding the San Francisco, except that there is some talk of a readjustment of the securities of the company in a way that will be beneficial to the common stock. The earnings of the company are quite sufficient reasons for bullishness regarding its securities.

Manhattan and New York Central. New York Central went up and Mannattan off during the first hour. Manhattan broke from 137 to 134 and a fraction The street soon absorbed the idea that the tunnel and terminal plans of the Central will be a bear argument on Manhat tan, the theory being that these plans will preclude any extensive use of Manhattan tracks by the Central. The chief reason alleged for the boom in Manhattan recently has been that the Central intended to make Manhattan practically the

of course, the electrical power being installed by the Manhattan is a good argument for the stock, but perhaps it has advanced far enough for the present on the strength of this argument solely.

New York Central Stock Issue. New York Central was a trifle erratic but on the whole strong during the first half of the session. The Street commen was favorable to the issue of New York Central stock which is a most gratifying evidence of its faith in the management of the company. There seems to be no doubt whatever that the stock will be taken eagerly, the entire \$35,000,000 if the directors see fit to dispose of it all. And there is no greater question over the ability of the company to pay the dividend on the extra issue.

The Chicago Gas Matter,

There has been some misunderstanding regarding the decision of Judge Crosscup in Chicago in the gas company matter The bald anouncement that the injunction prayed for by the company against the enforcement of the 75-cent gas ordnance was denied by the court is unfair. As a matter of fact the court did not quite agree with the form of the gas company's papers, and denied the injunction for this reason only, failing to take up the merits of the case entirely. Friends of the company insist that there will never be an enforcement of the ordinance. enforcement of the ordinance

Tennessee's Rail Mill.

The steel rail mill of the Tennessee Coal and Iron Company will be in operatio within a few days now, the first in the South. It is stated that both the Southern Railway and the Louisville will buy their rails from the company and that its business from the first will be all that it can handle. An officer of the company is authority for the statement that 18 per cent is being earned on the Tennessee Coal and Iron sttock, but none of this is distributed as dividends.
